

# SIDHANT SUMAN

+91-9939015230 — Bengaluru, India — [sidsum53@gmail.com](mailto:sidsum53@gmail.com) — [LinkedIn](#) — [LeetCode](#)

## SUMMARY

---

Backend Engineer specializing in **Distributed Systems** and **Platform Engineering**. Architected the core framework underpinning **250+ production services**, driving reliability and scale across the enterprise. Designed fault-tolerant workflows using **Temporal and Go**, and delivered automation tooling that slashed service onboarding time by **85%**.

## EXPERIENCE

---

### HP Inc

July 2023 – Present

*Cloud Engineer 1*

Bengaluru, India

- **Architected a production-grade Temporal orchestration platform**, integrating a high-performance **Go-based core** with **Java services**. Engineered a fault-tolerant microservices ecosystem handling mission-critical workflows with **automatic retries and state recovery**.
- **Owned the full infrastructure lifecycle** for the orchestration layer, designing **Docker** containerization strategies and **Kubernetes** scaling policies to bridge diverse tech stacks via robust CI/CD pipelines.
- **Developed a Java Spring Boot starter library** adopted by **250+ microservices** across **20+ teams**, reducing onboarding from **2 weeks to 3 days (85% faster)**. Included **feature flagging, logging, observability, and OAuth**, ensuring secure and consistent services.
- **Built MCP servers (GitHub, Git, Harbor, Sonarqube)** used by **150+ developers** and a **Java service template generator with Cookiecutter**, cutting setup from **4 hours to 15 minutes (95% faster)** and powering **50+ new services**.
- **Developed a DevOps automation bot** integrating **Harbor, Trivy, SonarQube, Nexus, Splunk**. Built a **vulnerability auto-remediation pipeline** reducing patching from **8h to less than 1h/service** and delivering **1000+ fixes/quarter**.

### HP Inc

Feb 2023 – July 2023

*Research and Development Intern*

Bengaluru, India

- **Enhanced reliability** with proactive observability using **Splunk APM**, reducing incident response time by **50%**.
- **Automated dashboards and alerts** with Splunk APIs, reducing manual setup by **35%** and improving operational visibility.

## EDUCATION

---

**Bachelor of Computer Science**, SRM University

2019 – 2023

**CGPA: 9.46/10.0**

Relevant Coursework: Data Structures & Algorithms, System Design, DBMS, Operating Systems, OOP

## SKILLS

---

**Languages:** Java, Go (Golang), Python, SQL

**Frameworks:** Spring Boot, Temporal, LangChain, Cookiecutter, MCP (Model Context Protocol)

**Databases:** MongoDB, MySQL

**Cloud/DevOps:** AWS (EC2, S3, IAM, KMS, Secrets Manager, OpenSearch), Kubernetes, Docker, CI/CD, Harbor, SonarQube, Nexus

**Monitoring:** Splunk APM, Splunk, DataDog

**Tools:** Git, IntelliJ, VS Code, GitHub Copilot, Postman, RabbitMQ, MCP Servers
